### DETAILED ACTION

1. This Office Action is in response to the Amendment filed 1/7/2010. Claims 4-6, 10 and 13 have been cancelled and claims 1-3, 7-9, 11, 12 and 14-51 are now pending.

### *Allowable Subject Matter*

2. Claims 1-3, 7-9, 11, 12 and 14-51 are allowed.
3. The following is an examiner's statement of reasons for allowance: Huffer et al. (US 2005/0090611).

Huffer et al. disclose an oil-in-water emulsion which contains a) one or more of amphiphilic compounds which are composed of a hydrophobic compound which is formed from a polyisobutylenes which have a high content of terminal double bonds ( $\geq 85$  mol %), and a hydrophilic compound which can be formed from reaction products of alkanolamines with ethylene oxide which reads on monoaminoethylene oxide, b) oil, and c) water (claims 24, 44; [0001]; [0011] - [0029]; [0091]; [0094]; [0101]; [0136]).

Art Unit: 1796

Thus, Huffer et al. do not teach or fairly suggest the claimed aqueous polymer dispersion obtained by emulsion polymerization of ethylenically unsaturated monomers in an aqueous medium in the presence of at least one free radical polymerization initiator and at least one stabilizer; wherein: the at least one stabilizer is employed before, during or after polymerization; the at least one stabilizer comprises at least one amphiphilic polymer comprising one or more hydrophobic units A and one or more hydrophilic units B; the one or more hydrophobic units A are formed from a polyisobutene block, at least 50 mol% of polyisobutene macromolecules of the polyisobutene block having terminally arranged double bonds, based on a total number of polyisobutene macromolecules; the one or more hydrophilic units B are formed from at least one alkylene oxide selected from the group consisting of monoaminoethylene oxide, monothioethylene oxide, and diaminoethylene oxide; and the at least one amphiphilic polymer has an ABA structure.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
